ADDITIONAL INFORMATION

Randomization

Random Number Generator (RNG)

The Random Number Generator and its implementation has been tested and certified for randomness according to prevailing industry standards by an accredited, independent, 3rd party test facility.

MALFUNCTION MANAGEMENT

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart), an error message is displayed in the game. The player can then log on again and resume game play.

The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game at a time when the game becomes available.

If a session times out, a "session timeout" message will be displayed to the player and the game will stay in an "unavailable" state until the player reloads the game.

This document provides details of how a player is informed of balance return payments and the technical process.

Information regarding session timeouts and malfunction is provided to the player via the game rules. Specifically the player is informed that "In the event of malfunction of the gaming hardware/software, all impacted game and bets and payouts are rendered void and all impacted bets refunded".

FRUIT TWISTER

Information to the player:

Players receive a response required message every hour of continuous play: They cannot continue playing unless they respond to the message which provides them with details about the amount bet and won so far during game play.

Players have access to their game session history and game rules from within the game at all times.
