## Notes

Updates to the previously issued report dated 25 August 2022 were made which include updating the signatures for all games as well as including the "Skulls Gone Wild" game theme. In addition, the Certification Report has been revised to reflect the latest notations.

GLI's compliance evaluation of the software was related only to the technical scope of work elements discussed herein. This specifically excludes any other features or functions provided by the submission not related to these elements. Any sections of the aforementioned Technical Standards specific to the Random Number Generator (RNG), Platform or Financial Reporting were outside of the scope of this software and/or integration evaluation.

GLI's Evaluation of the software included (but was not necessarily limited to) the following elements to the extent necessary to evaluate the software for compliance with the requirements in the aforementioned Technical Standards:

- Submitted Documentation Review
- Artwork and Game Rules Review
- Source Code Review
- Game Mathematics
- Emulation Testing
- Jurisdictional Requirements Verification
- Functionality Testing
- Artwork and Interface Testing

Player facing history is not available in the environment provided to the test lab.

GLI observed that the player's balance before and after game play is not recorded in the system due to the fact that player accounts are maintained by the Operator. The implementation of these elements will be the responsibility of the eventual Operator of this game.

## Verification Procedures

GLI generated the checksums of the files and/or directories using the methods stated below:

Verify+ by Kobetron™ - Verification Procedure

1. Open Verify+ by Kobetron™
2. Select the 'File' or 'Directory' radio button
3. Select the 'Browse' button and then choose the file or the top directory for which a signature is being requested
4. Click the "Verify" button
5. The current file/directory being checked will be displayed in the window
6. The program will generate the aforementioned signatures and display the results

## Test Environment
