SECTION 2. INTRODUCTION

eCOGRA has been appointed by NG Entertainment Ltd. to evaluate and certify the following Slot game for compliance with the relevant licensing requirements Subsidiary Legislation 438.04 Remote Gaming Regulations, Third Schedule, Regulation 25 of the Malta Gaming Authority ('MGA').

- Book of Blood (1.0.0) - NG Entertainment Ltd.

This certification report highlights our key findings as a result of the evaluation conducted on HTML5-Desktop, 1.0, which is the pre-production environment which is essentially the same as the live environment. The testing was conducted on the aforementioned platform established at NG Entertainment Ltd. during the period 04 October 2021 to 11 October 2021.

Please note that this is an initial certification conducted over Book of Blood, HTML5-Desktop, 1.0.0 and therefore this game certificate does not supersede any previous certifications.

SECTION 3. RNG COMPONENTS

The Random Number Generator (RNG) as detailed in Section 2 and used by NG Entertainment Ltd. in their Book of Blood 1.0.0 product was previously certified by GLI (Refer to RNG report: 413/19/001/UK/RTS/02). The scope of eCOGRA's randomness testing was limited to testing the randomness of the game output of the Book of Blood 1.0.0 game.

SECTION 4. TEST RESULTS

Numerous recognised statistical and mathematical tests were performed on a 1,000,000 rows of sample data, provided by NG Entertainment Ltd., of the game output to verify the RNG operates in a random and fair manner. This included tests for probability (to ensure the expected number of occurrences), randomness (so that the following occurrence cannot be predicted with any degree of certainty) and uniformity (to determine that each possible outcome is equally likely over the long-term). The acceptance criteria for the statistical tests is a pass at a 95% confidence level.

SECTION 5. GAME DESCRIPTION

Book of Blood (1.0.0)

Game Description:

Book of Blood is played on 10 fixed paylines, featuring Free Spins and a bonus reel respin feature.

Further details regarding the betting characteristics, features and detailed game rules can be found in the game instructions which can be provided upon request.

SECTION 6. PERCENTAGE RETURN TO PLAYER ('RTP')

Game Name	Theoretical RTP %	eCOGRA RTP % Recalculation
Book of Blood	95.58% Buy Feature: 96.50%	95.86% Buy Feature: 96.28%

The Theoretical RTP percentage indicated in the table above is extracted from the game documentation as provided by NG Entertainment Ltd.. eCOGRA recalculated the RTP percentage by performing additional independent mathematical calculations on the output of simulation game data.

SECTION 7. GAME SOFTWARE DETAILS

The scope of the game evaluation and certification applies solely to the critical game files, game versions and associated hashes provided in the tables below:

SECTION 8. REVIEW FINDINGS

Remote Gaming Regulations	Rating	Comments
Third Schedule - Regulation 25 - Technical requirement for gaming system		
1. The gaming system must:		
a. faithfully follow the game rules published by the operator; and	Compliant	
b. provide over time no more than the expected house advantage to the operator.	Not applicable	Not applicable to this game type.
2. Both the gaming and financial transactions must be congruent and secure.	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
3. The gaming system must satisfy the following criteria for randomness, following Schneier:		
a. the data must be randomly generated, passing appropriate statistical tests of randomness;	Compliant	Refer to RNG certificate: 413/19/001/UK/RTS/02
b. the data must be unpredictable, i.e. it must be computationally infeasible to predict what the next number will be, given complete knowledge of the algorithm or hardware generating the sequence, and all previously generated numbers;	Compliant	Refer to RNG certificate: 413/19/001/UK/RTS/02
c. the series cannot be reliably reproduced, i.e. if the sequence generator is activated again with the same input (as exactly as is reasonably possible) it will produce two completely unrelated random sequences.	Compliant	Refer to RNG certificate: 413/19/001/UK/RTS/02
4. The outcome of any game event, and the return to the player, must be independent of the CPU, memory, disk or other components used in the playing device used by the player.	Compliant	Refer to RNG certificate: 413/19/001/UK/RTS/02
5. The game or any game event outcome must not be affected by the effective bandwidth, link utilisation, bit error rate or other characteristic of the communication channel between the gaming system and the playing device used by the player.	Compliant

Third Schedule - Regulation 25 - Technical requirement for gaming system		
6. The gaming system must be able to display for each game the following information on the current page or on a page directly accessible from the current page via a hyperlink:		
a. the name of the game;	Compliant	
b. restrictions on play;	Compliant	
c. instructions on how to play, including a pay-table for all prizes and special features;	Compliant	Wallet functionality is not directly managed by the supplier.
d. the player's current account balance;	Compliant	
e. unit and total bets permitted;	Compliant	
f. the rules of the game.	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
7. All financial reports produced by the gaming system must be congruent with gaming transaction reports and conversely: Provided that all such reports shall be readily and freely available to the Authority.	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
8. The gaming system must:	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
a. be capable of producing monthly auditable and aggregate financial statements of gaming transactions, and		
b. calculate accurately all taxation and other monies due to the Authority.	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
9. The gaming system must maintain information about all games played, including:		
a. the identity of the player;	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
b. the time the game began as recorded on the game's server;	Compliant	The recording of the results within the gambling system are not managed by the supplier.
c. the balance on the player's account at the start of the game;	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
d. the stakes placed in the game (time stamped by the games server);	Compliant	The recording of the results within the gambling system are not managed by the supplier.
e. the game status (in progress, complete, etc.);	Not applicable	The scope of assessment is limited to aspects directly managed by the supplier.
f. the result of the game (time stamped by the games server);	Compliant	The recording of the results within the gambling system and account
